

Dear Middle School Parents,

I'm writing today to let you know that we had to make a small change to the middle school schedule. When we placed students into our new schedule and assigned classes to classrooms around campus according to size, we found that there were a few small problems that needed to be addressed.

To fix the problem we will be starting middle school classes ten minutes earlier than we originally planned. **7th graders will start their first class at 8:20 am and 8th graders' first class will start at 9:20 am.** This will only apply to the first two academic classes of the day. Classes after lunch remain the same as will the end of the school day for both grades. This change is reflected in the [updated MS schedules](#) and will also be reflected in Veracross.

We are sorry for the last-minute change. The pandemic continues to challenge and humble us, but we are working hard to create the best possible educational experience for our students. I wish I could say that this is going to be the last change or modification this year but we all know that we will need to be adaptable throughout the year.

We greatly appreciate the trust you have placed in us and the patience and flexibility you continue to exhibit.

Please let me know if you have any questions.

Take care.
